Black Steel

Kroy Lever-Loc "A" & "B" Style Ball and Socket Coupling Assembly

The most widely used quick action coupling in the world!

Key Features and Benefits:

- ✓ Quick pump connections decrease man-hours for pump installation/dismantling
- ✓ Ball and Socket design securely seated by O-Ring for vacuum-tight seal
- ✓ Durable construction provides years of use and decreases replacement costs
- ✓ Lever Locking jaw can be secured with locking pin to prevent accidental or deliberate uncoupling
- ✓ Up to 30 degree coupling articulation allows for misaligned connections
- ✓ Aluminum (B), Black Steel (A & B), and Galvanized (B Press-In) in stock.
